E-Commerce Development Overview

Inf-inet E-commerce Solutions are designed to take you from ground zero to a fully functioning e-commerce site. We will work with you step by step to ensure that your project is developed to your specifications and is optimized to sell your products/services successfully online. Below is an overview of the process.

- **E-Commerce Strategy**
Our consultants will help you evaluate your e-commerce options. They will evaluate your business and make recommendations on the best solutions for achieving your company's goals.
- **Web Site Development**
Our programmers will turn your ideas into workable web pages creating the desired look and feel of the web site; while encompassing your marketing objectives to maximize your businesses internet presence. The team will lay out a phased schedule to meet your go-live requirements.
- **Functionality Testing**
Your web environment will be system tested to ensure completeness and proper workflow. Recommendations and modifications will be made to correct any problems or deficiencies.

Ecommerce Web Hosting

The most affordable, professional ecommerce web site hosting plans available; complete with all of the tools and resources that your ecommerce site needs to be successful and profitable. We offer the industry leading OSCommerce shopping cart (\$500.00 Value) free with any ecommerce web hosting plan. Not only will you receive this free shopping cart with your hosting package, you are also eligible for a free merchant account (this is an exclusive offer for Inf-net ecommerce web hosting and design clients). Many other features that are not available or cost extra with other hosting companies are standard free features with all of our ecommerce web hosting plans.
